HISTORY

OF

PACIFIC BOWMEN Inc.

Prepared by Tony Firmin 1999

Having been a member of Pacific Bowmen since 1983 I did have some difficulty researching back through the years via our paper records to establish an accurate record of our past Executive Officers.The result of that initial search made it very obvious that we need to record in one cover document,a edited version of our history covering such topics as:-

Past Executive Officers
Members Past and Present
Major Events

We have come a very long way since our foundation members held the first official and documented meeting so let us start at that point.

ooooOOOOoooo

Prior to any thoughts of starting Pacific Bowmen,several people who were members of the "Tanglewood Club" in the Murwillumbah area that lived on the Coast spent many enjoyable hours shooting their ranges.Like all Clubs from time to time,a break away group held several informal discussions and meetings.From there our history starts to take shape.

That **First Meeting** was **held** on **February 4th 1982** in the old house owned by the Sands family.The house still stands today in front of the Somerset College,Mudgeeraba. The name of that property was **"Wyangan"** hence the name of the trophy the adult members have been shooting for, each Christmas since our foundation.The minutes of that first meeting are reprinted word for word.

Minutes of First Meeting **February 4th 1982**

Present: Peter Legdin,David Cooper,Neil Sands,Errol Bainbridge,Des Hill,Jim Casson,Maurie Withers,Mark Howard,Darren Wheate,Ralph Kennedy Mark Legdin.

First on agenda was to form Committee.

Elected Committee:

President.	Peter Legdin	Nominated: Errol BainBridge Seconded: Des Hill
Secretary.	Neil Sands	Nominated: Peter Legdin Seconded: Des Hill
Treasurer.	Maurie Withers	Nominated: Errol Bainbridge Seconded: Ralph Kennedy

With committee chaired business of forming Club commenced.
Firstly.

Grounds for Club to use was given by Neil Sands as temporary grounds until permanent abode was fixed.

(2) A range captain was needed.This position was filled be Des Hill.
(3) A working bee the following Sunday to start on range.
(4) Affiliation with A.B.A..A letter to be sent informing of a Club.
(5) A copy of A.B.A. Constitution be sent for to read at following meeting.

All business finished,the meeting was closed at 9.00pm.

During the very early days many members got stuck in as a team and like today,several individuals put in just that little extra.Some snippets from those minutes are:-

Des Hill submitted the winning design for the Club Logo of the Archer at full draw standing under the palm tree.Des was also responsible for the Axe and Knife rules we use today as they were drawn up and approved at our Club meeting in November of 1982.Then submitted to A.B.A.via our Rep who at that time was Greg Goulding.

Jim Casson made all the metal templates for the spraying of targets,that we still have today.

Errol Bainbridge was the First A.B.A Representative.

Des Hill was the first Range Captain.Ralph Kennedy was the first Safety Officer.First shoot director was John Casson.

Tony Isles donated the first score cards used by the Club.

Two member attended the 1982 Easter Safari.

Attendance at our First ever Official Sunday shoot was 18.In the early years of the Clubs operation all scores shot by a member on any Sunday were recorded by the Club Score Recorder.It was normal to have anywhere from 20 to 30 members shoot on any Sunday.They would roll up have a shot followed by a BYO bar-b-que then leave to do whatever had to be done around the house etc

At a shoot held on the 29/4/1982,18 Adults,13 Juniors and 2 Cubs participated.It is astounding to note at their first Christmas shoot held in November of 1982 a total of 48 club members attended the shoot.During the first year ninety five (95) individuals registered to shoot the Club Ranges.

For the first years rather than shoot in a grade we shot with a handicap system.This worked by an averaging system ie;

1st	Sunday	3 & 1 Arrow total	= 300
2nd	Sunday	3 & 1 Arrow total	= 380
3rd	Sunday	3 & 1 Arrow total	= 400
		Total Score	1080 (standard 3+1 arrow round is a maximum of 800 Points)

We then take the maximum score over 3 Sundays equals 2400,less the archers total 3 rounds scored of 1080, equals 1320,divide by 3 to give the average over 3 shoots this equals 440.Since the maximum score is 800,deduct the average of 440 from the 800 and the archers handicap score for his/her 4th Sunday shoot is 360.At the completion of the 4th 3 + 1 arrow round,you repeat the process again and so on

It was a huge job for the score recorder,so if is not hard to see why we now shoot in a grading system.We changed to the grading system used today in March 1984.

The second range was commenced on the 6th of Feb 1983.Sadly each time it rained this range was washed away and all future efforts to rebuild it were abandoned as a lost cause.

In April of 1983 the Club discontinued selling beer at the Club and it was then BYO only.No alcohol was to be consumed during rounds.The sale of beer was reinstated next month as the Club was not making any money

At formation of the Club it was decided that membership numbers were to be restricted to 40.This was changed to 60 in July 1983.

It was in September of 1983 that the Club Committee was starting to get serious about looking for a new home.Des Hill,first located some land owned by Marist Brothers in the Currumbin Valley but the draw back on this land was we were not permitted to build a Club House of any desription.Correspondence was sent to the then Albert Shire Council requesting that land be made available to us for a permanent Club House and ranges.

Council replied that they would assist,providing us with copies of the maps held for the whole of the Albert Shire.Their comment was if it is in yellow it is land that is suitable for your purpose.They did say that it was not a foregone conclusion as it may be in use for some other uprose. Barry & Shonah Mc Dermott. Tony and Jan Firmin covered many kilometres both in cars and on foot looking at land.Some of it was perfect for hang gliding jump-offs or bungy jumping.

While this was happening we offered to take up the option on a big piece of land at Carrara.Bugger it.It was the Council stadium.Offer not accepted. Out efforts continued and the area we occupy today was discovered by accident.After an inspection by Barry and Tony agreeing that it was perfect for our use,we corresponded and met with the Council where a lease was prepared on the 15th day of January

1985.The term of the lease was for 15 years and will be renewed in the year 2000.It was a requirement of the Council that three (3) trustees were to be elected by the Club.They were Peter Legdin,Barry McDermott and Tony Firmin. The current trustees as amended by notices of motion at Management Committee Meetings are Tony Firmin,Graham Wright and Daryl Bulger.

The original building part of which still stands today was a piggerry.After removing all the pens etc, we had our instant Club House.In those days Pacific Bowmen was the envy of many Clubs in Australia due to the facilities we had.I might add the same can be still said today.

Now that we had the land approved the hard work had to start in earnest, so a full weekend working be was held on the 9th and 10th of March 1984 to construct the first of our ranges.This was what we now know as the top range.Whilst many of those butts still exist, they are no longer in operation.When first built we were able to utilise the use of tree stands.This range over the years did have three of them.It was also considered by many,that a field course round should come as close as possible to approximating hunting conditions.At both Club and Zone Shoots it was a requirement when pegging out a 20 target range there were to a total of four (4) kneeling shots.This was abolished some where about 1986 I think.

After finishing the top range we tried without success to have Mr.Bill Laver,the Albert Shire Chairman perform the Official Opening of our Club Grounds.Due to his work and social commitments this never took place.To the time of putting this paragraph to paper no official opening has ever taken place.The second range,(bottom course) was commenced on the 2nd of April 1984, and completed on the 20th of May followed by a BYO Bar-B-Que. A tireless team worked under the then Range Captain Russel Kennedy to complete butts,cut tracks and clean up all the junk that was left behind when the original owner of the land,Len Bridgeman (of Bridgeman Dve) gifted the land to the Government of the day.

The Whole of 1984 was spent in consolidating the Club and preparing for what was a very bright future.It was at this years Christmas Trophy Presentation that President John Casson made a presentation of a Plaque to Neil and Pam Sands for their input and the use of their land as Club Grounds.

It was after moving to the new grounds that the committee realised that with a restriction placed on the number of members permitted, we would run into problems and restrict the potential of the Club.

It was at a Club Meeting in February 1985 that the Monthly Club Shoot Trophy was introduced as prior to that time we had been using a single shield and the winners name was being placed on that shield.It was always getting the shield returned for the next shoot.

It was also 1985 that saw the Zone accept the use of Pin Sights of Optics being allowed to participate at Zone Shoots.

Our first lockable compound was erected in July 1985 and was in the middle of the shed on the closest side to our out door overhead cover.This was eventually moved to

make way for our first indoor shooting position that was moved back to the regulation 20 yard distance.

It was in 1986 that Pacific Bowmen at a Club Committee Meeting reinforced the By-Law statement that required all members to attend and participate in a minimum of 4 Working Bees over a twelve month period.Failure to do so would result in their being required to give a reason in person to the Committee.It was also a requirement that a Member must attend and participate in a minimum of four (4) Club Shoots during the twelve (12) months to be eligible to win a trophy at the Christmas Shoot.

The working bee requirement has caused so many problems over the years that it was dropped from our By-Laws.

1986 was another big year for the Club as the Council gave its final approval for us to have our own access of Old Coach Rd.Up until this time we were entering via a gate behind where the Ampol Service Station stands.From here we crossed land owned by John Jenkins who at that time made life very difficult for us.Entry to our area of land was via his track,which went through where the housing estate to our west now stands.then via our back boundary behind the practice range.

It was at this point Kevin Seeney the father of our Junior member, Greg offered to supply the machinery and pay the wages of his operator to put in our road.The council did supply the gravel and the pipes etc at the creek crossing.The whole operation took three days to complete.Kevin's valued assistance was recognised with the presentation of a wall plaque.Since the Council put the concrete deck over the pipes it has remained a trouble free spot in comparison with many years ago.

It was also in 1986 that the Zone D Management Committee signed a lease with the Caboolture Shire Council over the land used (and now leased by) Caboolture Club for the IFAA Club.

Fire also swept our bottom range this year causing John Casson and I run for cover.It crossed the highway by coming through the big pipes under the highway.Following the rebuilding of the ranges it was decided to allocate family butts and it was that family's or members responsibility to make sure it was well maintained.Sounded like a great idea at the time but in reality it did not work so was abandoned.

The first of our Video Coaching session took place in October of 1987 and proved to be an instant success.After the session we all travelled to the home of Terry and Margaret Betts for a Bar-b-Que and a few beers.Voted a great time. The video idea

has been carried out several times over the years till 1999 and have always been a very useful tool in sorting out style and technique problems.On several occasions we have conducted bow tuning sessions both for barebow and sighted shooters as well as Rules Of Shoot and etiquette courses.All well received by the members. Another area that the Club can be proud of is that we have always had qualified coaches available to the members.

Due to the amount of interest being shown in the sighted division at Zone/Branch level and at our Club,divisions were created in 1990.This was also the first year our members participated in the World Indoor Mail Match.

It was in May of 1991 that we had our first challenge shoot with the new Hinterland Club.Like all new Clubs, they were formed by previous members of Pacific Bowmen and the close association still exists to this day.

Also in May of that year we put on an excellent Club Display at the Parklands Show Grounds with the Australian Heritage Display.Our input was, and the quality of our display among the best there.A lot of effort went into manning it but it was worth while.Paul Bragg was a visitor to our display and joined some time later.

The inaugural Grant McTaggart Memorial Shoot was held on the 6th of October 1991
at our Club.

Whilst not a lot appeared to be happening from the late 80s to the early 90s in Club activity we still had large numbers away on at times very frequent hunting trips to Western Qld.,Northern N.S.W. and to the Gulf Country.Whilst most have been a bit quiet on the hunting scene our newer members have obtained their Bowhunting Proficiency Certificates and have been hunting a few times.

Our very first organised Club Hunt took place on the 3rd,4th & 5th of July 1992.We had 20 members travel out to Texas to take part in a great weekend of hunting and fellowship.The Club provided all the food and we all got in to the act of either cooking, eating, drinking, oh and some hunting as well. Whilst on the trip we did some compass reading etc.Since that trip which was by far the best, we have been to three other properties over the years.

In November of 1992,we conducted our one and only Indoor Night Shoot,most of which was recorded on Video.This was a huge success and was very well attended with about thirty to forty shooters taking part. Most of them travelling down from Brisbane.We cleared almost $300 on the night for this fun shoot.

One very difficult issue to come before a Club committee was the amount of money we had been spending for many years on the Trophies required for our Monthly Shoot winners,Highest 3 & 1 Arrow Scorers and the Christmas Shoot plus Hunting Awards and perpetuals.We were spending an average of $1,500 each year.By taking the step to combine the recognition onto just one larger trophy we have reduced our cost to less that $700 per year.

At long last after countless letters and phone calls to the owners of the adjoining land that is between us and the houses to our west;under the power lines,we are given approval in July of 1993 and work is commenced on building our third (3) range.It

was considered by many visiting shooters to be one of the most difficult ranges around.The layout and the building of this range required several changes to be made to our existing ranges.Sadly with the rapid development moving in on us we eventually had to retreat back to our side of the boundary to where we are today. Over the years we have been able to achieve great results at working bees thanks to the number that attend and actually put in.The bottom range has required huge amounts of work to maintain due to the constant flooding with butts being washed away in the past.

It has often been stated that the worst job in any Club is that of range Captain.It requires a real commitment to the Club to continually provide a challenging range whether you shoot Barebow or with sights.Lets take some time to recognise them for their effort.Not in any order they were.Ralph Kennedy, Des Hill, Tony Firmin, Jim Casson, Barry McDermott, Russell Kennedy, Jason Firmin, Eddie Safrik, Geoff Millward, Lee Farrugia, Peter Legdin, Peter Green, John Anderson, Trevor Schnieder, Grant McTaggart, Peter Guthman, Gary Burns, Dave Cowburn.It is also worth noting after researching the Club Minutes,that more people have resigned from this position than any other in the Club's history.Maybe they are trying to tell us something,we already know, but will not admit to.

In November of 1993 having just finished the new range the Club was approached by the Albert Shire Council seeking our thoughts on moving to another location as the school next door,(King's Christian College) had approached the Council in an effort to aquire our land.The Club agreed to move provided that we be funded to do so.This would be one of the most drawn out,on again,off again,episodes ever.

We did locate a very large piece of land in the Currumbin Valley that was ideal for our purpose. It was available, then it wasn't.Then it was. Then the school did not want to proceed,then they did. At the end of the day, the school did not want to be bound by Council decisions, so the whole thing was off.The finalisation of this was in 1998 when the Club Members at a Special General Meeting decided we would stay at our present site and upgrade our facilities.

Foundation Club members Des Hill and Jim Casson were recognised by the Club Members in February 1994 for their record of continuos membership and service to the Club by presentation of wall plaque each. In memory of Des the Club conducts

a monthly Knife and Axe throwing competition with all scores being tallied for a trophy at the end of the year.Jim Casson now lives in Iluka New South Wales.

1994 also saw a great addition made to our facilities and that was the addition of our Bar-B-Que area and the overhead cover and tables.This area has been the focal point for a lot of fellowship,meetings and functions etc.A great asset.We were very fortunate to have the bricks donated by wide bay bricks and construction carried out by Graham and his band of offsiders. This cover and the old piggery Club House, have been the venue for most of our Club Presentation Nights and 50th birthday parties Over the years.Presentation night functions have been varied to a large degree.Our very first presentation night was held at the Smoke House Restaurant of Kennedy Drive at Tweed Heads in 1982, and again in 1983. We have been to the Palm Beach Surf Club for Chinese, to Paul Bragg's acreage for a camp out weekend, The Community hall at Swift Park in Nerang, the Cherry Jam Restaurant, Fancy dress on two occasions at our Club house. Who could forget Alan Madam dressed as the Asian answer to Marilyn Monroe. We have even had Colonel Sanders at the Club House.

In keeping with our desire to provide excellent facilities for our Visitors we rebuilt or toilet block in its current location in September of 1996.The Management Committee had been seeking ways of increasing the number of Cubs and or Juniors we had as members.It was decided that a letter would be sent to all the High Schools in our area offering to those School Principles,a chance for them to contact us with a view of offering their students another form of activity outside of the school curiculum.Sadly not one school responded to the correspondence.

Still with the emphasis on attracting members we produced a brochure that has been distributed into service stations,sports stores and places that could be a source of membership.This was commenced in 1998.

Two Life Memberships were granted during 1998 and framed certificates were presented in Sept.98 to Geoff Millward and Tony Firmin for their services to the Club during the years of membership.

As has been the case between some Clubs an affinity is created that lasts for years and such is the case with Pacific, Hinterland and North Albert.A three way Tri-Series was recommenced during 1998 and has proved a great success,as well as a good money earner for each Club.The overall competition was won last year by North Albert.

As a Club hosting Zone/Branch Shoots we have established a very proud history of providing a great shoot venue,backed up with meals and service second to none.In 1996 we received from National a accreditation certificate that allows us to be selected as a Branch/State/National Shoot Venue. This is based on the facilities we have to offer,as well as conforming to standards established that ensure a full accounting of our control over our affairs,3 year plans,budgets,coaching programs etc.Thanks to the new age of computers it is now so much easier to document and record this information.

We are now up to that point in our history where we are totally rebuilding the Club House.It has been mentioned many times through out our history that we do have members committed to the success of the Club.The design of the building was put together by Graham Wright.Assisting Graham in the physical construction, with, man, many hours labour was Reg Reeves and Geoff Millward (Milly).Invaluable assistance was also given by Barry and Jason McDermott,Peter Guthman,Paul Mann (Tiling),a donation of tiles from Steve Arnold, and,the members of the day who were able to give up their time and assist.

History Executive

OFFICE BEARERS PACIFIC BOWMEN Inc.

Year	President	Secretary	Treasurer	Life Member
1982/83	Peter Legdin	Neil Sands / Tony Firmin	Maurie Withers	
1983/84	Barry McDermott	Tony Firmin	Brad Murphy	Niel Sands
